Dear City Clerk Reimer,

Thank you for your August 4, 2026, correspondence and the prompt production of the requested Flock Safety records.

I am writing to provide a courtesy security alert regarding the files released by your office. As part of Midwest Transparency Audit's standard intake process, we run a forensic sweep on all documents to ensure no sensitive or exempt data was accidentally released before we publish them to our public accountability archive.

During our review of your production, we discovered that live, unredacted financial and hardware data was included in the release:

1. **Live Financial Data:** On Invoice INV-74705, the Payment Remittance Information section explicitly displays Flock Group Inc.'s active checking account number (3302113966) and Routing/SWIFT codes (121140399/SVBKUS6S).
2. **Hardware Identifiers:** The documentation release additionally exposed the unique hardware serial numbers for the Flock Safety Falcon cameras deployed during your contract period.

Releasing live ACH and wire routing data in a public records request is a significant security oversight that leaves your former vendor's payment portal vulnerable to wire fraud. Furthermore, publishing the exact serial numbers of law enforcement surveillance hardware creates an unnecessary operational security risk.

To protect the City and the vendor, Midwest Transparency Audit has permanently redacted this sensitive financial and hardware data on our end before uploading the files to our public ledger. I highly advise your office to update your master redaction files to mask these sections for any future Sunshine Law requests regarding this contract.

Thank you for your time and your continued commitment to transparency.

Sincerely,

Managing Member
